EDMONTON LETTER

(By C. H. Stout)

::o::

Edmonton, March 24.— Flanked by rather startling legislation such as the securities tax, a tax on farm production, a revamped social credit bill, and an act to prevent foreclosures on homes, the 1938 budget debate made a final spurt down the home stretch before the legislature rose for the week last Friday and the decks were cleared for committee work on the $22,000,000 worth of estimates.

With the measure proposing a government tax on farm production, to eventually replace the land tax before the house, the fact that the budget debate had run a tepid course of three weeks and then unexpectedly was cut short ,scarcely created a murmur. This new production levy on all agricultural production was proposed by Hon. Lucien Maynard, minister of municipal affairs, who predicted that it would mean dropping the social service tax and other land taxes, although it would not be done this year.

The tax will apply on all kinds of grain, hay, alfalfa, horses, cattle, sheep, swine, poultry, beef and dairy products, Mr Maynard informed J. J. Bowlen, Calgary. The production tax would be collected the time products were sold, consequently there would never be any arrears of taxes, the minister said, insisting also that it would result in a reduction of farm taxes. When production was down or crop losses were sustained taxation would not have to be paid. W. N. Chant protested that the measure put a penalty on good farmers. Mr Maynard said it was an experiment and if successful on farm production would be extended as a taxation principle on all production in the province.

First section of the securities taxation bill to levy two percent on land mortgages was presented Friday. Other proposals to tax more securities were to come down in at least one more bill, football tactics being adopted by government apparently on the strategy that if several measures are thrown by the courts or by disallowance, one statute may get through with the ball.

When rules were waived to permit being presented the bill to prohibit forecloses on mortgages on homes, with $2,000 exemption, Liberal Gerald O'Connor scathingly remarked that this was merely another phase of the "Social Credit sham battle." Mortgages on homes couldn't be foreclosed anyway and the only homes being lost for debt in the province were those sold for taxes. Mr Maynard protested that home owners were not being dispossessed for taxes, and maintained this was the first step in the government's program to provide food, clothing and shelter, for everyone.

Taking it by and large it was quite a political week in the legislature. Undoubtedly the splurge of legislation and the close of the budget debate by Hon. Solon Low Friday afternoon was not designed to injure the cause of the social credit candidate in the East Edmonton federal bye-election held Monday.

Nor was the spectacle of Hon. William Fallow slapping a liberal coat of whitewash on the Lunney report on 1936 highway construction and policies, with the generous assistance of the government majority, harmful to the byelection prospects from the party viewpoint, J. J. Bowlen, Liberal, who was instrumental last session in initiating the highway probe, urged by resolution that the contract system by public tender be again adopted for public construction but his motion was voted down 36 to 11 and Mr Fallow's amendment placing all blame for "inefficiency and waste" in the 1936 program on subordinate officials in his department was carried, though Judge Lunney, as was pointed out sharply by E. L. Gray, Liberal leader, had fastened this blame directly upon the minister and his policies.

Mr Fallow was scathing in his condemnation of the contract and "political patronage" systems of both Liberal and U. F. A. governments in the past, of officials of his department later dismissed, of witnesses at the road investigation, of the prosecuting counsel, indirectly on Mr Justice Lunney himself, and finally even of the atmosphere and sanitary facilities of the Edmonton courthouse where the investigation was heard.

Mr Fallow in fact was in a decidedly vitriolic mood and charged that he could build the new administration block in Edmonton, which cost the U. F. A. government one million dollars, for exactly half that amount. J. J. Bowlen hotly recalled that Liberals had investigated that building expenditure and found everything in order and he maintained that it would cost more than a million today. Mr Fallow was equally emphatic that he could build a better block for $500,000.

Mr Gray threw considerable cold water on the steaming minister when he remarked that at least under former governments when a minister was found inefficient he was dismissed from office.

The Liberal leader merely read passage after passage from the judge's finding wherein blame was definitely placed in Mr Fallow for waste of public money and inefficient policies. However government forces adopted the amendment upholding the day labor system of highway building and condemning "political patronage" of the past.

"If there was political patronage under the contract system the report shows conclusively that there certainly was political patronage under the minister's system," declared A. E. MacLellan, Innisfail social credit member. Mr Bowlen said if the present Alberta highway sytem had cost $76,000,000, as claimed by Mr Fallow, the cost would have been more than $150,000,000 if done by the present government's methods.

Liberal Leader E. L. Gray withdrew his long-standing resolution urging feed relief measures in the drouth area, after it was announced that an agreement for $200,000 for feed and other agricultural relief had been advanced by the federal government, in addition to the $1,900,000 to be guaranteed by the Dominion for seed grain and other purposes.

Newspaper advertising of lists of lands to be put up for arrears of taxes, will be permitted by amendments in the Tax Recovery Act.

SHOWER FOR MISS MIDA HUGHES

::o::

Mrs Van Tighem and Geraldine and Miss Mary Folk entertained Friday evening in honor of Miss Mida Hughes April bride-elect. About thirty-five guests were present. Bridge was played at six tables with Mrs Gladys Morgan winning high score and Mrs Irene Giffen the consolation.

After full justice had been done to the delicious refreshments served by the hostesses a mock wedding was held in which Miss Louane Bower with much difficulty finally succeeded in marrying off beautiful Bedella Jemima Sunflower Pepperski (Jean Harvey) to handsome Zakariah Kidney Doolittle (Daisy Harvey).

Miss Pepperski, afraid of being left at the altar, made no mistake in putting the ring on protesting Mr Doolittle's fingers. The groom, given in marriage by Tina Glendining, entered to teh strains of Lohengrin's wedding march played on mouth organs by Mary Folk and Gerry Van Tighem. The groom carried a beautiful bouquet of artificial mixed seasonal flowers, while his attendant carried celery tops artistically tied with lovely patriotic ribbons.

Following the ceremony Jean McGregor and Tina Glendinning brought in a tub prettily delorated in blue and white containing many practical kitchen articles which they presented to Mida. In a few well chosen words Mida expressed her thanks to all those present for the useful gifts.

SHOWER FOR BRIDE-ELECT

Pop-poy-ees— the attractive home of Mrs Gladys Morgan and Hugh Berry was the rendezvous Saturday afternoon for a large number of guests when Mrs Morgan, Misses Maud and Mildred Marcum entertained at a delightful bridge and shower, honoring Miss Mida Hughes whose marriage to Mr Tommy Chamberlain is an event of next week. White wedding bells, streamers artistically festooned and quantities of spring flowers, created a very festive appearance. Bridge was played at 7 tables, the prize winners being Mrs Nels White and Mrs Ian McKenzie, with Mrs Ferry winning the travelling prize.

Following delicious refreshments served at quartette tables, Mrs T. E. Wright on behalf of the guests presented the guest of honor with a partial dinner set of very chaste design. Mida replied graciously thanking the guests for the lovely gifts and all good wishes. A happy social hour followed ere the guests wended their several ways homeward.

How Are Life Insurance Funds Invested?

Answer.—In government and municipal bonds and debentures, first mortgages and other securities.

Question.—What do these investments accomplish?

Answer.—They help to finance the undertakings of our Federal and Provincial Governments—our municipalities—our industries and public utilities. They also aid in building new homes and schools—and in improving farms.

Q.—What is the total amount of Life Insurance funds invested in Canada?

A.—More than Two Billion Dollars.

Q.—What does this sum represent?

A.—It represents the accumulated savings of more than 3,500,000 Canadian men and women.

Q.—How do I benefit from these investments?

A.—Through good roads, new schools and local improvements made by your own municipalities, which, in turn, create employment.

Q.—What is the guarantee back of these invested funds?

A.—The security of the individual loans, in addition to the integrity of the borrowers—whether governments, corporations, or individuals.

Q.—Have the Life Insurance companies of Canada kept faith with their policyholders?

A.—Yes. In good times and bad, they have fulfilled every guarantee 100 cents on the dollar.

This is the fourth of a series of messages sponsored by Life Insurance Companies operating in Canada. The fifth, to appear in two weeks' time, will discuss Life Insurance investments in Alberta.

LINEN SHOWER

::o::

Miss Mida Hughes was again the raison-d-etre for a large gathering of friends at the hospitable home of Mr and Mrs A. Pierson Tuesday afternoon, when Mrs Pierson, Mrs Nicholl and Mrs F. Saunders were delightful Tea hostesses. Over forty guests were present.

An interesting contest of transposed letters provided much brain exercise, in which Mrs Mautagne was the successful competitor, winning a pretty cup and saucer. A musical programme given by Miss Gerry Van-Tighem, Mrs T. S. Hughes, Miss Folk and Miss Graser and Gladys Hughes proved a very entertaining feature.

Tea was served from a most attractive table at which a two tier cake held central place flanked by pink roses in bud vases and cathedral tapers in same shade, Mrs T. B. Hughes and Mrs T. L. Chamberlain presiding at the Tea and Coffee urns. Following delicious refreshments, Mrs Van Tighem on behalf of the guests presented the guest of honor with a handsome Double Damask Cloth and eight serviettes in Marie Antoinette pattern. Mida graciously expressed her thanks for so much kindnes. "For She's a Jolly Good Fellow" was sung and a merry, informal hour followed.

Dec 28

A very enjoyable social evening was held in the Cheadle Hall last Thursday. Over 100 guests sat down to a sumptuous dinner, sponsored by the Ladies of the W. A. assisted by the Ladies Club, and the Sports Club. Guest speakers were the Rev. Mr Lang and Rev. Mr Gilbert of Strathmore, Mrs A Silverthorne capably acted as chairman and speaker for the W. A. On behalf of the Clubs she welcomed the speakers of the evening and the guests. Mr Lang spoke particularly to the young people. His topic was "Stability and Unstability." He compared a ship without an anchor as evidence of unstability and the mighty oak as that of stability and urged young people to mould their lives after the pattern of the latter

Rev. Mr Gilbert spoke on the "Life of St. Patrick."

Miss Lyda McLean spoke briefly on behalf of the Sports Club. Mrs R. G. Kirton on behalf of the Ladies Club, thanked the guest speakers for their coming to take part in our community activities and expressed the hope that in the near future another social evening would be held for the community. A word of thanks is due to the W. A. for taking the initiative in sponsoring the evening and helping to make it the success it was. After the dinner the Sports Club arranged games which brought to a close a very enjoyable community evening.

Mr and Mrs R. Walker and Mrs N. K. Loudenback have returned home from the United States. Mrs W. E. Keer from a visit in Nobleford and Claresholm and Mr R. J. Kays from Twining.

Congratulations to Mr and Mrs F. E. Cowell on the birth of a daughter on March 17th.

Mr and Mrs Ted Murl and family of Calgary are residing on the farm recently vacated by Mr Ira Smith.

A quiet wedding was solemnized in the North Hill United Church, Friday last when Miss K. Smith, of Beiseker became the bride of Arthur Payne, youngest son of Mr and Mrs J. W. Payne of Cheadle. Only the immediate relatives were present. Mr and Mrs Payne will reside on the farm of Mr O. Edwards, south of Cheadle. We wish them a long and happy married life.

Pot Pourri

There is so much to catch
As the days go by,
The line of some queer old thatch
Against wintry sky.

The huge red sun of November
Threatening snow,
Dark woods that seem to remember
Ages ago.

Gold king-cups crowning the ditches,
Windows agleam,
Old willows standing like witches,
Haunting a stream.

Far mountains lit with a glow
That is tremulous
With something we only know
Is never for us.

All shapes of rocks and of trees
That a rune has enchanted,
All sounds that sigh upon seas
Or lands that are haunted.

So much there is to catch
And the years so short,
That there is scarce time to snatch
Pen, palette or naught.

And to seize some shape we can see
That others may keep
In moment of mystery,
Then go to our sleep.

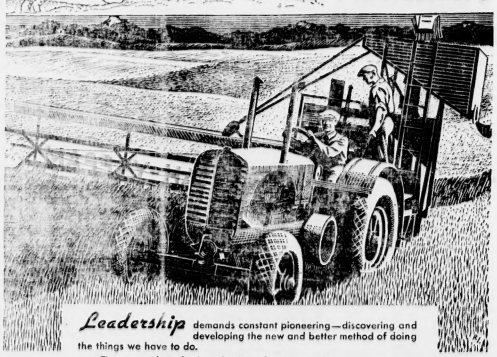
STILL PIONEERING



Leadership demands constant pioneering—discovering and developing the new and better method of doing the things we have to do.

Time was when the introduction of a new implement was a memorable and historic event, but these were the early days in the application of mechanics to farming operations. Today, changes succeed each other with greater rapidity and even the most revolutionary innovations are accepted with little acclaim.

Not in any period of the ninety years of Massey-Harris history has such skill been employed in the designing and developing of machines for the farm as there is today. The Company's engineers, in their extensive field experiments, are constantly testing new ideas and developing, under actual conditions, machines and attachments specifically suited to the requirements of the territory for which they are intended.

Thus, whether it be a one-handled walking plow to be used by a native, and even perhaps drawn by natives, on the South African veldt, a power-driven mower to cope with the luxuriant growth of grass on an English meadow, or the One-Way Disc Seeder developed to help the farmer on the prairies of Western Canada combat soil drifting, it is the result of definite scientific research by the Company's field engineers.

And in the motorized mechanization that is taking place in farming operations, Massey-Harris is in the forefront, still pioneering in bringing to farmers the latest developments in Tractors, Combines and other power equipment.

EUROPEAN TURMOIL

Conditions in Europe which looked so ominous last week have for the moment taken on a less threatening attitude. Lord Beaverbrook and others state as their belief, there will be no major outbreak for four or five years.

If the dread holocaust can be warded off for that length of time then our conviction grows that it will ultimately be entirely prevented. In the meantime ravages in Spain and China go on unmolested. It is difficult to understand the greed and brutality of mankind that will rain bombs on innocent people and destroy valuable buildings —to gain what?

EDMONTON BYE-ELECTION

In the three cornered fight in the Edmonton Bye-election O. A. Kennedy S. C. candidate was returned by a majority of approximately 2000 over R. C. Marshall nearest competitor. The combined votes of Marshall and Cleveley totalled 10,402. It is not, of course an assured fact that had there been only two men in the field, all of these 10,402 votes would have gone to the opponent of S. C. But the likelihood of a majority is so strong, that "he who runs may read" and the significant fact is plain, that in a Provincial general election— when it takes place— a united front will be necessary.

MR. UNWIN RELEASED

The brief statement over the radio Monday evening gave no further details. Few are so callous as to wish that his full term had been required. It was a petty and undignified act for which he was convicted, and no doubt he has repented and regretted his hasty action many times over in the solitude of Fort Saskatchewan. If he were as has been stated the dupe of a stronger but none the less scrupulous personality so much the more has he suffered his foolishness. We are none of us infallible and all say and do things, which in our more thoughtful moments we keenly regret. We believe then the lesson for Mr Unwin has been as well impressed as it would have been by the completion of the full sentence.

IF EIRE WANTS TENOR FOR ITS PRESIDENT, McCORMACK WILLING

Hollywood— if Eir wants a tenor for president, John McCormack is willing.

The 54-year-old singer was born in Ireland but became an American citizen in 1919. He doesn't know whether this disqualifies him under the new Free State constitution but said in a St. Patrick's Day announcement.

"So very many of my friends in Ireland have written me to throw my hat in the ring, I cabled my son in Dublin to find out if I am eligible—. If the people of Ireland want me, I will go."

He added, however.

"I will consider standing for the presidency only if both the De Valera and the Cosgrove parties want me."

CASE OF THE LOWLY OAT HULL

A common by-product once considered a waste but now used in teh production of commercially useful compounds is the oat hull. From it, one product is obtained that is utilized in the production of a substance like Bakelite which is used for knobs on radios, electric plugs, cold cream jar tops and a host of other articles. This same product is used in the manufacture of resin-bonded abrasive wheels. This adaptation has reduced the grinding costs of a moderately priced car by 50 per cent.

Derivatives of this compound are used for treating grain, in place of formaldehyde, while others will be used as anti-freeze, when the demand becomes large enough to lower the price. Thus from the lowly oat hull many useful and important products are produced. Western Farm Leader.

G. G. Coote, of Nanton, director of the Alberta Wheat Pool for the Claresholm district, and also a director of the Bank of Canada, was appointed temporary secretary to the Canadian Chamber of Agriculture at the annual meeting held recently in Ottawa.

THAT'S WHAT THEY SAY WHEN YOU SERVE... dried or Pickled FISH

ARE YOUR children fussy about food? Have they likes and dislikes?

Give them Dried or Pickled Canadian Fish, fixed up in one of the tasty dishes that can be made with this food.

You can get such Dried Fish as Cod, Haddock, Hake, Cusk and Pollock, and such Pickled Fish as Herring, Mackerel and Alewives, no matter how far you live from open water. It comes to you in perfect condition, every bit of its flavour retained for your enjoyment.

It's grand for the family's health . . . fish contains the proteins and minerals that help build sturdy bodies . . . and it's economical, too.

Serve fish more often . . . for the health and nourishment of the family.

WE OWE YOU MONEY

Payable in CASH—ON DEMAND

★ ★

IF yours is one of the 4,740,000 accounts in which people have dollars on deposit in Canada's chartered banks, your bank owes you money.

That money does not belong to The People, the government, the nation, or to your neighbour. It is YOURS.

If you are a savings depositor, the bank, in addition to providing safety, pays you interest on YOUR MONEY just as a borrower pays interest to the bank, for

WHAT IS A BANK? *—It is an institution organized to receive deposits and to make loans; that is the mechanical description. But it is a much more human place than that; it means much more to YOU.*

Your bank is a place where you can deposit money for yourself and your family, with every assurance that you can get it back whenever you call for it—in full and with interest.

The bank's books show your deposit as a sum of money it owes to you—must pay to you when you ask for it—a liability of the bank.

Your bank is, too, a place where persons worthy of credit may borrow for business or other legitimate purposes.

The borrower must be worthy. By worthy, we mean that because of his record for honesty and integrity, his business ability, and the things he owns, he may be counted on with reasonable certainty to be willing and able to repay. We MUST know that he is a "good risk", for we MUST keep YOUR deposit and those of all other depositors SAFE, against the day you call for what WE OWE YOU.

As a depositor, you are our creditor; we have to be prepared to pay you in full. Therefore we must do our utmost to collect in full as much as we loan, plus our costs of operation.

We pay interest for deposits and charge interest on loans. You will be surprised when we tell you the range of our costs, the smallness of our margin of profit.

Bank deposits are the money *of certain* people — not *"The People"*. There is the substance of Canadian banking as plain as a pikestaff. You have known it for a long time; you can let others know just *what* money it is they speak of, when they talk about the community's claim to bank deposits.

More than 4,700,000 people in Canada—equal to more than 42 per cent. of Canada's population —have "money in the bank"—deposits lodged with Canada's chartered banks. Of these no fewer than 4,084,000 are savings depositors receiving interest on their money.

Canada's chartered banks have paid over $397,000,000 in interest on deposits in the last ten fiscal years.

Savings of the Canadian people, deposited in the chartered banks, now total nearly $1,584,000,000 — the average savings deposit being $387.

There are about 660,000 current accounts of individuals and corporations totalling $679,000,000 in Canada's chartered banks.

It takes the equivalent of nearly three average savings accounts to make one loan of $1,000.

And it takes the net profits, over and above the costs of doing business, on scores of loans of $1,000 each for a year, to make up the loss of one single loan of $1,000.

This shows what care the banks must take in lending, if the depositors' funds are to be safeguarded, for the net profits of banks are less than one-half of one per cent. on their total assets.

Without deposits a bank could not long continue in business. YOUR MONEY remains on deposit in the bank ONLY AT YOUR WILL; and if you think the bank is lending recklessly, you will draw it out.

The bank must always keep itself in a position to pay you your deposit, in full, in cash, whenever you choose to call for it.

Canada's chartered banks realize that the establishing of your home, the happiness of your family, the education of your sons and daughters, their start in life, their progress in business, your provisions for a rainy day, your peace of mind in the twilight of life, may depend largely upon this money — money you have deposited in a bank — money YOUR BANK OWES TO YOU.

THE CHARTERED BANKS OF CANADA

***Your local branch bank manager** will be glad to talk banking with you. He will be glad to answer your questions, from the standpoint of his own experience. The next article in this series will appear in this newspaper. Watch for it.*
